GENERAL OCCUPATIONAL THEMES

SECTION 1

The General Occupational Themes (GOTs) measure six broad interest patterns that can be used to describe your work personality. Most people’s interests are reflected by two or three Themes, combined to form a cluster of interests. Work activities, potential skills, and values can also be classified into these six Themes. This provides a direct link between your interests and the career and education possibilities likely to be most meaningful to you.

Your *standard scores* are based on the average scores of a combined group of working adults. However, because research shows that men and women tend to respond differently in these areas, your *interest levels* (Very Little, Little, Moderate, High, Very High) were determined by comparing your scores against the average scores for your gender.

BASIC INTEREST SCALES

SECTION 2

The Basic Interest Scales represent specific interest areas that often point to work activities, projects, course work, and leisure activities that are personally motivating and rewarding. As with the General Occupational Themes, your interest levels (Very Little, Little, Moderate, High, Very High) were determined by comparing your scores against the average scores for your gender.

As you review your results in the charts below, note your top interest areas and your areas of least interest, and think about how they relate to your work, educational, and leisure activities. Take time to consider any top interest areas that are not currently part of your work or lifestyle and think about how you might be able to incorporate them into your plans.

OCCUPATIONAL SCALES

SECTION 3

This section highlights your Profile results on the Occupational Scales of the *Strong*. On the following pages you will find your scores for 130 occupations. The 10 occupations most closely aligned with your interests are listed in the summary chart below. Keep in mind that the occupations listed in your Profile results are just *some* of the many occupations linked to your interests that you might want to consider. They do not indicate those you “should” pursue. It is helpful to think of each occupation as a single example of a much larger group of occupational titles to consider.

Your score on an Occupational Scale shows how similar your interests are to those of people of your gender who have been working in, and are satisfied with, that occupation. The higher your score, the more likes and dislikes you share with those individuals. The Theme codes associated with each occupation indicate the GOTs most commonly found among people employed in that occupation. You can review your top occupations to see what Theme codes recur and then explore additional occupational titles not included on the *Strong* that have one or more of these Theme letters in common.

Also consider exploring occupations on which you scored in the midrange, since you have some likes and dislikes in common with people in those occupations. You might also consider occupations of least interest or for which you scored “Dissimilar”; however, keep in mind that you are likely to have little in common with people in these types of work and probably would contribute to such occupations in a unique way. Your career professional can guide you further in the career exploration process.

Click the name of any of the occupations in your top ten list above to visit the O*NET™ database (<http://www.onetonline.org>) and see a summary description of that occupation. Learn about occupations by visiting reputable Web sites such as O*NET. You can also find career information in a public library, in the career library of a college or university near you, or in a professional career center or state or local government job agency. Supplement your research by talking to people who are working in the occupations you are considering. These people can describe their day-to-day work and tell you what they like and dislike about the occupation.

Each scale includes descriptions at both ends of the continuum, and the score indicates your preference for one style versus the other.

Your scores on the Personal Style Scales were determined by comparing your responses to those of a combined group of working men and women.

INTRODUCTION TO YOUR STRONG INTERPRETIVE REPORT

You recently took the *Strong Interest Inventory*® assessment, the most widely used measure of career interests in the world. The purpose of this report is to help you understand the information presented on your *Strong* Profile and use it to explore your career options.

Your *Strong* results reflect your interests. You are likely to be the most satisfied and productive with career and educational choices that incorporate what you like to do. Your career professional can help you consider your interests, along with your skills and values, to find rewarding career, educational, and leisure options.

The *Strong* compares your answers to those of thousands of people in the general workforce and to the interests of satisfied workers in 130 occupations. This report summarizes your general interest patterns and your similarity to workers in various career fields and jobs. Your general interest patterns point to potentially satisfying work environments; your similarity to workers suggests potentially satisfying work tasks and specific careers.

Your results are organized around six major occupational themes that describe people and the environments in which they work. These occupational themes are listed in the Six Occupational Themes box to your right.

As you read this report, always keep in mind that the *Strong* is an inventory of your interests. It is not a test of your abilities. If you need clarification of your results, be sure to talk them over with your career professional.

YOUR GENERAL OCCUPATIONAL THEMES

Your report begins with your results on the six General Occupational Themes. The chart below expands on the information presented on your Profile to include definitions of the Themes on which you scored highest, as well as career fields, personal descriptors, and leisure activities typically associated with those Themes. The Themes describe broad patterns of interest and can be used to help you identify satisfying work environments, the kinds of people you might enjoy working with, and what motivates you the most at work. Keep in mind that because the Themes are very broad, the descriptors may not fit you exactly.

A CLOSER LOOK AT YOUR GENERAL OCCUPATIONAL THEMES

Most people’s interests combine more than one Theme. Your highest Themes suggest career fields that might interest you the most and are your strongest career motivators—what will most excite you in your work. Examples of career fields for your highest Themes are highlighted below.

The top Themes of your Theme code are Enterprising and Conventional. These Themes are the ones on which we will focus in this section. Of course, you are not limited to these career fields. They are only a starting point for your exploration process.

SELECTED CAREER FIELDS

- Product sales and marketing
- Real estate appraising
- Consulting
- Business and finance
- Purchasing
- Retail sales

ACTION STEP

Note any career fields in the list above that appeal to you.

Although your Themes have some characteristics in common, each one has unique career motivators—what will stimulate you to achieve in your career.

YOUR CAREER MOTIVATORS

YOUR HIGHEST THEME	STRONGEST CAREER MOTIVATOR	MOTIVATOR COMBINATIONS
Enterprising	Persuading and influencing	EC Making decisions and managing the flow of information or production of goods with bottom-line efficiency
Conventional	Organizing	CE Structuring practical work tasks and carrying them out in detail, in support of decisions made by others

ACTION STEPS

1. Consider your career motivators. How might they determine the kind of work environment that would be attractive to you or the kind of work you would like to do? How have they been present in your life up to this point?
2. Consider other potential careers that seem to combine persuading and influencing and organizing.

The next section of your report begins to narrow down the broad Theme categories into more specific interests.

YOUR BASIC INTERESTS

Now that you have considered your interests at the most general level, it is time to focus on specific areas of activity—things you might like to do. There are 30 Basic Interest Scales on the *Strong*.

The Basic Interest Scales in which you show the most interest are listed below. Notice that each Basic Interest is related to a particular Theme.

YOUR TOP STRONG INTEREST AREAS

BASIC INTEREST SCALE	THEME	TYPICAL INTERESTS AND ACTIVITIES
Taxes & Accounting	Conventional	- Preparing taxes - Tracking profits and losses of a company - Analyzing data
Sales	Enterprising	- Developing new prospects - Entertaining clients - Traveling for business
Marketing & Advertising	Enterprising	- Developing advertising campaigns - Evaluating profits for new products - Collecting consumer information
Entrepreneurship	Enterprising	- Owning your own business - Developing business opportunities - Working from a home office
Finance & Investing	Conventional	- Analyzing financial data - Managing investments - Financial planning and budgeting

ACTION STEPS

1. Look over the interest areas above. How are they present in your life now? Do they represent your current work, school, or leisure interests? Do the activities you like cluster in the same Themes as your general interests? If they do, your interests are probably fairly focused. Try to make sure your work matches these interests. If your interest areas do not cluster, your interests may be more diverse. Think about ways you might incorporate some of them into your work and others into your leisure time.
2. Look at section 2 of your Profile. In what areas do you have the least interest? Try to avoid these areas in your work. If you do have to work in areas that are not particularly interesting to you, try to engage your top interests in your leisure time.

YOUR SIMILARITY TO OCCUPATIONS

The Occupational Scales section of the *Strong* focuses your work interests even further. A high score on an Occupational Scale means your likes and dislikes are similar to those of the people who work in the occupation and who are satisfied with their jobs. Listed below are the Occupational Scales on which you scored the highest. You may enjoy the day-to-day work of these or related occupations. Click the name of the occupation to visit the O*NET database and learn more about it.

NEXT STEPS

As is true for many people, your General Occupational Themes, Basic Interests, and Occupations share many characteristics. This often represents a similar focus throughout work, leisure, and academic interests. Find out as much as you can about occupations, career fields, leisure activities, and academic interests with codes similar to those of your top Themes.

ACTION STEPS

1. Using the summary chart on the preceding page or any of the descriptors you highlighted in this report or on your *Strong Profile*, create a master list of all descriptors that either describe you or appeal to you. Take this list with you to any informational or job interviews you attend. During the interview, ask questions to determine whether there are opportunities to express these interests or engage in these activities and try to determine whether there is a good fit between your interests and the job you are considering. For example, if you highlighted *fast paced, assertive, influential*, ask about opportunities to express this interest.
2. Your *Strong* results can also help you during your career exploration. Your Enterprising Theme score suggests that the career planning process may at times seem too internal, requiring you to be more contemplative than you like to be. To keep yourself motivated:
 - Try to find a networking group that will expand on your own contacts and connections.
 - Talk to as many people as possible who work in occupations related to your interests.
 - Check out your reactions with a friend or associate.
 - Visit some classes before you enroll in a career-related educational program to make sure the training is practical and action oriented.
 - Ask a colleague to help you check out your decision if you seem to be acting too quickly.
3. The booklet *Where Do I Go Next? Using Your Strong Results to Manage Your Career* provides worksheets to help you in your career exploration. Use this booklet and other helpful books and Web sites suggested by your career professional.
